

To whom it may concern:

As a paying subscriber, and new listener to X M Radio, I find it "light years ahead " of anything out there on the AM/FM band. They perform a wonderful service to the communities they serve here in FL. and all over the U.S.A.

If the original am/fm stations had been doing their job all along , maybe they would not be as jealous as they are !!!

XM Radio did their job and continue to do their job brilliantly !

I stand in defense of them as a PAYING SUBSCRIBER, and suggest you quit wasteing valuable time picking on them.

Your time would be better spent supporting President Bush's agenda with the war on terrorism and how to HELP OUT, rather than place more stupid, stumbling blocks in our way!!
